Hi Nicole,

Thanks for calling yesterday. I got your messages too late in the day to call you back. First, I did want to apologize for the late notice and not adhering to the proper protocol. This is an old case that the defense was claiming he was going to advance it before the trial date to plea it. I waited a bit before summonsing, thinking it would plea, but that hasn't happened yet. I should have just sent out the summonses early on to make it onto your schedule. That is my mistake and it won't happen again.

This is a case that we may be able to hold off on analyst testimony until the following day, Oct. 15. Maybe your schedule looks better that day?

Thanks again for your help,  
Ingrid

Hi Ingrid,

I will pull out my notes on this and check my schedule for next week; I think that I have a case in Brockton Superior that day but I will see if I can get a status on that. I will give you a call sometime this afternoon. Also, as you can imagine we are very busy lately with summons the lab is requesting that all summons be faxed to the number below as we are trying to implement a tracking system for where chemists are expected to be and when.

Thanks,

Hi Nicole -

I just left you a voicemail about this. I am sorry that it is such short notice, but I was wondering if you would be able to be "on call" next Wednesday for this trial. Also, is there a way you could testify to both the prelim and confirmatory testing of the heroin? I'd be happy to discuss it further on the phone. My work number is 617-287-1195 x105 and ce [REDACTED]

Thank you,

Hello Ms. Corbett,

I am attaching a summons for a trial at the Dorchester Court on 10/14/09. The lab numbers are [REDACTED] [REDACTED] I would like you to be on call that day since the defendant has expressed an interest in taking a plea (there is no school zone violation, so we don't have much leverage). Is there a good number to reach you in case we do need you?

Thank you very much for your time,
